*Why Compromise*

# Better technology for added cleaning value

The new SCRUBTEC 8 series of scrubber/dryers from Nilfisk ALTO represents a significant step forward in cleaning equipment efficiency.

Each of the five models in the range feature the latest technologies developed through our years of experience, and have been designed to make cleaning easier, faster and more thorough. The result is better than ever productivity, extremely silent operation, and the most advanced ergonomics available. Most importantly, floors are left completely clean and dry.

This series of walk-behind units is truly the state-of-the-art in scrubber/dryer efficiency. Gimbals-mounted brushes provide adjustable pressure to ensure effective cleaning, even on heavily soiled surfaces; the parabolic AccuTrack™ squeegee leaves the floor dry and ready for re-use; the brush decks are interchangeable; the one-touch controls reduce operator error and improve cleaning results; the ergonomics are such that operator fatigue are minimised – the list goes on!

The superb performance of the SCRUBTEC 8 machines brings a new dimension to large area floor cleaning. When scrubbing and drying is this efficient, costs are optimised and the benefits become obvious. Reliable and easy to use, this latest innovation from Nilfisk-ALTO provides added value to professional cleaning.

One-touch controls minimizes the risk of operator error for improved safety and better cleaning results

**For use in:**

- Manufacturing facilities
- Industry
- Warehouses
- Auto transport
- Health care facilities

• *Excellent ergonomic design easy to understand control panel with "One Touch" Scrub Control*

• *Extremely quiet operation thanks to the acoustically engineered vacuum motor containment*

• *Large 85 litre solution and recovery tanks provides longer run time between dump and fills*

• *Rear solution fill Allows filling when the machine is back into the deep sink for emptying the recovery*

• *Patented electronic pulse solution delivery system Delivers precise and consistent solution without use of mechanical valves.*

• *On-Board charger as standard*

• *Large Diameter, High Traction, Non-Marking, Foam Filled Wheels. Smoother, quieter, no slipping, no marks on floor.*

• *Protective wheels are fitted both on the squeegee and the brush deck*

• *Gimble mounted brushes and pad drivers contours uneven floors for even scrubbing agitation*

Recovery tank has large opening to make it easy for thorough sanitizing. The debris tray is easy to remove and clean, keeps large recovered debris from plugging your facility drain
